

MOHAMMED ABDUL AZEEZ S

Tenkasi, Tamil Nadu | mdazeezsoftdev@gmail.com | 8667005712 | [linkedin.com/in/mohammed-abdul-azeez-b876b5301](https://www.linkedin.com/in/mohammed-abdul-azeez-b876b5301) | github.com/Azeez11223

CAREER OBJECTIVE

Aspiring Generative AI Engineer with foundational knowledge in Machine Learning, NLP, and Generative AI, plus hands-on Python experience building classification models (Random Forest, XGBoost, Neural Networks). Full-stack background in Java, Spring Boot, and REST APIs. AI-native mindset — using GitHub Copilot and ChatGPT to accelerate development. Eager to apply ML/NLP foundations to build innovative AI solutions in an Agile environment.

TECHNICAL SKILLS

Programming: Java, Python, SQL

Machine Learning: Random Forest, XGBoost, Neural Networks, Feature Engineering, Model Evaluation

Backend: Spring Boot, Microservices, REST APIs, JPA, Hibernate, JWT Authentication

Frontend: React, HTML5, CSS3, JavaScript

Databases: PostgreSQL, Firebase (NoSQL)

Computer Science Fundamentals: Data Structures, Algorithms, OOP, Design Patterns

Cloud: EC2, S3, IAM, Cloud Deployment Basics

Tools: Git, GitHub, IntelliJ IDEA, VS Code, Postman, Maven

Practices: Agile (Scrum), CI/CD (Basic), RESTful API Design

AI Tools: GitHub Copilot, ChatGPT, Claude API (code generation & debugging)

INTERNSHIP EXPERIENCE

Backend Developer Intern — Ethical Intelligent Technologies

Jan 2026 – Present

- Developed backend modules and RESTful API endpoints using Java and Spring Boot, enabling data exchange between frontend and database layers
- Designed and tested 10+ REST APIs using Postman, ensuring reliability and correct response handling across endpoints
- Worked with PostgreSQL to write optimized queries and manage data models for backend business logic

Full Stack Developer Trainee Intern — Eagle-HiTech Softclou Pvt. Ltd.

May 2025 – June 2025

- Collaborated with senior developers to implement Firebase real-time data integration, reducing UI latency in data-driven components
- Participated in design and development of responsive UI components, ensuring cross-browser compatibility and seamless UX
- Followed Agile sprint workflows, participating in daily standups and code reviews

Frontend Developer Intern — IBM SkillsBuild

June 2024 – July 2024

- Developed responsive UI components and implemented form validation for offline-compatible login features
- Gained hands-on experience in front-end development practices including UI testing and accessibility

PROJECTS

Real-Time E-Commerce Order & Inventory System

- Built a full-stack application using Spring Boot, React, and PostgreSQL with transactional order processing and inventory management
- Designed and implemented RESTful APIs with JWT authentication, securing user sessions and protecting endpoints
- Applied pagination and filtering on product listing APIs, improving query performance and response times

Ad Click Fraud Detection — ML Classification System

- Built a machine learning pipeline in Python to classify fraudulent ad clicks, applying data preprocessing, feature engineering, and model evaluation across Random Forest, XGBoost, and Neural Network classifiers

Calorie Calculator & AI Diet Plan Generator

- Built a diet planner app using React with integrated nutritional data, interactive calorie tracking charts, and personalized meal plan generation

EDUCATION

B.Tech Information Technology — B.S. Abdur Rahman Crescent Institute of Science and Technology 2022 – 2026

Vandalur, Chennai | CGPA: 7.28

CERTIFICATIONS

- Java— Hackerrank
- SQL(Intermediate)- Hackerrank
- English for Competitive Exam — NPTEL
